Bernkasteler Badstube Riesling Auslese Dr. Heidemanns-Bergweiler/Bernkastel-Kues - Germany

Terrior	The closest vineyard to the Wine Estate is the Bernkasteler Badstube (loosely translated it means something like „the roman spa of Bernkastel). Our property is split into many small lots, totaling to about 15 acres. The main soil type in the Bernkasteler Badstube is a medium-deep clay-slated residual soil having varying parts of loam and stone mineral content. In some areas one encounters pure slate having a high mineral content.
Description	The Badstube Auslese is really limited in production, only 2-5% of the grapes have the quality that is necessary for producing an Auslese (special selection). A complex array of ripe peaches, nectarines and tangerines make this Riesling very special.
Suggestion	Ideal for combining with delicate foods. Try it with escalope of veal, shellfish or shrimps..
Quality Level	Auslese
Varietal	100 % Riesling

We say:

“This Auslese has a fascinating length. You drink it and it stays on your palate for a loooooong time ... awesome wine for aging.”
