Bernkasteler Badstube Riesling Kabinett Dr. Pauly-Bergweiler/Bernkastel-Kues - Germany

Terrior	The closest vineyard to the Wine Estate is the Bernkasteler Badstube (loosely translated it means something like „the roman spa of Bernkastel). Our property is split into many small lots, totaling to about 15 acres. The main soil type in the Bernkasteler Badstube is a medium-deep clay-slated residual soil having varying parts of loam and stone mineral content. In some areas one encounters pure slate having a high mineral content.
Description	The Badstube Kabinett has a bouquet of ripe apricot, with spicy and exotic notes. Well-integrated acidity is combined with nuances of apple, nutmeg and white pepper. This wine achieves a nice balance between sugar and acidity.
Food affinities	Try this Riesling with scalloped veal schnitzel with mushrooms and Gruyere cheese, served with mashed potatoes.
Quality Level	Kabinett
Varietal	100 % Riesling

We say:

“The best category the Mosel has ever had! This is the perfect combination of sugar and acidity. Food friendly and even better just by itself ... this is Mosel!”
